

## Return to Skating at Skate Kingston

- Prior to arrival at the INVISTA Centre, skaters are asked to please self-screen for COVID-19 symptoms. Skaters exhibiting symptoms should stay home.
- Skaters can only enter the facility 15 minutes prior to the scheduled skate time.
- Parents must enter with your skater if you plan to stay and watch. Parents will not be permitted in once the session has started. If a skater is late for the session the skater and parent will be allowed to enter together.
- There is no off ice warming up inside the facility or anywhere outside on city property.
- Masks must be worn by skaters and parents at all times. Skaters can remove their mask once they step on the ice. Skaters should come prepared with a small bag, to put mask in board side.
- Skaters can only enter and exit through the main doors of the INVISTA Centre.
- Skaters and parents must stop at the front desk and sign the COVID-19 screening. All individuals must do this upon entering the rink each time. Skaters do not need a parent with them to do this.
- Hand sanitizer will be at the main door and also going into our arena.
- Skaters must then proceed to the dressing rooms. Skaters must come dressed ready to skate. No loitering in the main lobby. This area is off limits to parents too. Parents can help tie up skates in the dressing rooms but then must proceed straight up to the seating area inside the rink if they are remaining to watch. Access to this area is only available from inside the arena.
- One parent per child is allowed in the facility. No siblings will be allowed.
- Skaters must stay physically distanced at all times.
- Skaters must put their mask back on when the session is over, before stepping off the ice and proceeding to the dressing room.
- Skaters and parents must leave the building within 15 minutes of the session ending.
- Skaters that are skating a back-to-back session are required to leave the building in between sessions. Upon re-entry, skaters and parents will need to check back in at the front desk.

We wish all our skaters a happy and healthy return to skating.
